

FOR IMMEDIATE RELEASE

**Allegro Software Development Corporation
And A10 Networks, Inc.
Reach Licensing Agreement**

BOXBOROUGH, MA, June 21, 2013 – Allegro Software Development Corporation (“Allegro”) and A10 Networks, Inc. (“A10”) are pleased to announce that they have entered into a licensing agreement for the use of Allegro’s technology in A10’s products. All legal disputes between Allegro and A10 are resolved, allowing both parties to move forward to focus on growing their businesses and continue their commitment to providing customers with the highest quality products and services.

About Allegro

Allegro Software Development Corporation is the premier provider of UPnP networking and device management technologies specifically targeted at embedded Internet applications. Since 1996, Allegro has been a force in the evolution of device management solutions with its RomPager embedded web server toolkit. Now also an active contributor to UPnP / DLNA initiatives, Allegro supplies a range of UPnP toolkits that offer portability, easy integration and full compliance with UPnP device specifications. Allegro is headquartered in Boxborough, MA. For more information, visit:
